

Welcome on board

The Würth Elektronik Group with more than 7200 employees in 50 countries manufactures and sells electronic and electromechanical components, circuit boards and intelligent systems. The business unit Würth Electronics Midcom, a US based company, manufactures and sells a wide product range from ferrites, inductors, capacitors and common mode chokes to transformers, LEDs and connectors.

In the search for perfection.

Explore deep.

Product Design Drafter | Watertown, South Dakota

Your tasks on board

- Works with Engineering to create and check standard blocks for new components and package styles so they can be used on standard products.
- Understands and promotes corporate direction with regards to documentation control.
- Works from verbal instructions or rough sketches supplied by design and manufacturing engineering.
- Creates new release drawings for standard transformers and component parts.
- Works independently on repetitive assignments and designating standard products using standardized blocks.

Your application

Our HR team looks forward to reviewing your resume and application highlighting your qualifications and wage expectations.
