

Welcome on Board

The Würth Elektronik Group with more than 8300 employees in 50 countries manufactures and sells electronic and electromechanical components, circuit boards and intelligent power and control systems. The business unit Würth Electronics Midcom, a US based company with its European headquarters in Germany, is focused on the design and manufacture of custom magnetics.

Heading for: The future!

Creative thinker wanted.

Product Engineer (m/f) | Munich-Garching | Ref.-No. 638

Your tasks on board

- Design customized magnetics (Power Transformers, PFC, Inductors, CMC, etc.) to meet customers specification under manufacturability criteria and cost effectiveness
- Responsibility for the product throughout the entire life cycle (design to end of life)
- Assist project planning and be able to communicate ideas
- Good understanding of safety standards to support customer needs and to design accordingly
- Provide technical support to sales, manufacturing and quality departments
- Work in a multidisciplinary team to provide solutions under quality complaints

Your application

Daniel Josic looks forward to receiving your application. Please indicate your earliest possible entry date and your wage expectations.

► **Apply online (Ref.-No. 638)**

Your requirements

- Bachelor or Master in Electrical Engineering degree or Superior
- Strong communication skills
- Customer oriented way of working
- Interest of design and development of customized magnetics for AC/DC and DC/DC converters, Inverters, Rectifiers and SMPS
- Fluent English written and verbal is a must. German knowledge is preferable
- Hands-on mentality
