## Statement regarding the Enlargement of the candidate list

Dear Sir or Madam,

On 23<sup>rd</sup> January 2024, the candidate list of substances of very high concern has been extended from 235 to 240 substances. Therefore, to fulfill our obligation regarding Article 7(2), 33 (I) of the REACH Regulation (EC) No. 1907/2006, we are currently checking our products regarding the new substances.

For more information regarding the substances of the candidate list, please check the website of the European Chemical Agency:

<https://echa.europa.eu/candidate-list-table>

As soon as the analysis and verification is completed, a statement regarding this matter will be published on our website, which would be roughly in the end of March 2024.

In case of any question in between for specific parts we supplied to you, you may drop an e-mail to us for detailed information. [eiSos-CN-QDC-MaterialManagement@we-online.com](mailto:eiSos-CN-QDC-MaterialManagement@we-online.com).
