

USER GUIDE

UG024 | Using the QSPICE Model Libraries

Richard Blakey

1. INTRODUCTION

For any new users of a tool, the basic functionalities must be learned before the tool can be put to use. For QSPICE, knowing how to correctly install and find the models is crucial. It is necessary to manually install QSPICE models in the software. Our QSPICE models consist of a symbol file (*.qsym). Our models are available in our GitHub repository, <https://github.com/WurthElektronik/QSPICE-Library.git>.

2. INSTALLING THE MODELS

2.1 To Install the Model

You can download some or all of the model folder libraries, or a single model from the GitHub repository, to a location of your choice on your computer.

Blakey, Richard > .spyder-py3 > Qspice > Wurth Elektronik > WE-MXGI		
Name	Type	Size
0.3μ_4020_WE-MXGI_74438440200030.qsym	QSYM File	1 KB
0.4μ_4020_WE-MXGI_74438440200040.qsym	QSYM File	1 KB
0.6μ_5030_WE-MXGI_74438450300060.qsym	QSYM File	1 KB
0.16μ_4020_WE-MXGI_74438440200016.qsym	QSYM File	1 KB
0.22μ_5030_WE-MXGI_74438450300022.qsym	QSYM File	1 KB
0.47μ_5030_WE-MXGI_74438450300047.qsym	QSYM File	1 KB

Figure 1: Save netlist files into a folder of your choice.

Now open QSPICE and simply drag the folder that contains the model library into QSPICE (see Figure 2).

Figure 2: Dragging the folder into QSPICE.

After dragging the folder into QSPICE, you will see the folder, including any subfolder structure within this folder in the Symbol & IP Browser. Any additions, deletions or changes to the files or folder structure within this imported folder will be visible the next time QSPICE is opened (Figure 3).

Figure 3: Part models are now available to use in QSPICE.

3. INSTALL FROM GITHUB REPOSITORY

3.1 Install GitHub Desktop

GitHub Desktop is the most user-friendly tool for working with GitHub projects, and we recommend you use it for keeping your library files up to date.

Go to <https://desktop.github.com/> to download the appropriate package for your operating system and install it on your computer.

During the Desktop installation, register or sign in with your GitHub Account and click next. On the opening GitHub Browser webpage authenticate yourself and give permission to the GitHub desktop application. Then the process jumps back to the Desktop tool/application.

3.2 Clone the Library

From GitHub Desktop, click the button Clone a repository from the Internet as shown in the following screen in Figure 4.

Let's get started!

Add a repository to GitHub Desktop to start collaborating

Figure 4: Clone a repository from the Internet.

Enter the URL of Würth Elektronik QSPICE Library repository <https://github.com/WurthElektronik/QSPICE-Library.git> and define the local directory to clone the repository.

Then click the **Clone** button, and all the files from the online repository will begin to synchronize into the local.

Figure 5: Clone Setup.

Cloning the repository will take some time.

Cloning LTspice-Library

Figure 6: Clone in progress.

3.3 Synchronize Local Library from GitHub

If there are any updates in the GitHub repository, GitHub Desktop will detect it and you can “Pull” the update to your local. If there are any new commits on the online master repository, you’ll receive the update information automatically from GitHub Desktop.

Click **Pull origin** button to fetch the updates to the local folder immediately.

If there is an update in the GitHub repository, GitHub Desktop will detect it and you can “Pull” the update to your local. Once there are any new commits on the online master repository, you’ll receive the update information automatically from GitHub Desktop.

Click **Pull origin** button to fetch the updates to the local folder immediately.

No local changes

There are no uncommitted changes in this repository. Here are some friendly suggestions for what to do next.

Pull 1 commit from the origin remote

The current branch (`main`) has a commit on GitHub that does not exist on your machine.

Always available in the toolbar when there are remote changes or `Ctrl` `Shift` `P`

Pull origin

View the files of your repository in Explorer

Repository menu or `Ctrl` `Shift` `F`

Show in Explorer

Open the repository page on GitHub in your browser

Repository menu or `Ctrl` `Shift` `G`

View on GitHub

Figure 7: Clone Setup.

Click **View on GitHub** to explore more details of the latest updates (Figure 8).

IMPORTANT NOTICE

The Application Note is based on our knowledge and experience of typical requirements concerning these areas. It serves as general guidance and should not be construed as a commitment for the suitability for customer applications by Würth Elektronik eiSos GmbH & Co. KG. The information in the Application Note is subject to change without notice. This document and parts thereof must not be reproduced or copied without written permission, and contents thereof must not be imparted to a third party nor be used for any unauthorized purpose.

Würth Elektronik eiSos GmbH & Co. KG and its subsidiaries and affiliates (WE) are not liable for application assistance of any kind. Customers may use WE's assistance and product recommendations for their applications and design. The responsibility for the applicability and use of WE Products in a particular customer design is always solely within the authority of the customer. Due to this fact it is up to the customer to evaluate and investigate, where appropriate, and decide whether the device with the specific product characteristics described in the product specification is valid and suitable for the respective customer application or not.

The technical specifications are stated in the current data sheet of the products. Therefore the customers shall use the data sheets and are cautioned to verify that data sheets are current. The current data sheets can be downloaded at www.we-online.com. Customers shall strictly observe any product-specific notes, cautions and warnings. WE reserves the right to make corrections, modifications, enhancements, improvements, and other changes to its products and services.

WE DOES NOT WARRANT OR REPRESENT THAT ANY LICENSE,

EITHER EXPRESS OR IMPLIED, IS GRANTED UNDER ANY PATENT RIGHT, COPYRIGHT, MASK WORK RIGHT, OR OTHER INTELLECTUAL PROPERTY RIGHT RELATING TO ANY COMBINATION, MACHINE, OR PROCESS IN WHICH WE PRODUCTS OR SERVICES ARE USED. INFORMATION PUBLISHED BY WE REGARDING THIRD-PARTY PRODUCTS OR SERVICES DOES NOT CONSTITUTE A LICENSE FROM WE TO USE SUCH PRODUCTS OR SERVICES OR A WARRANTY OR ENDORSEMENT THEREOF.

WE products are not authorized for use in safety-critical applications, or where a failure of the product is reasonably expected to cause severe personal injury or death. Moreover, WE products are neither designed nor intended for use in areas such as military, aerospace, aviation, nuclear control, submarine, transportation (automotive control, train control, ship control), transportation signal, disaster prevention, medical, public information network etc. Customers shall inform WE about the intent of such usage before design-in stage. In certain customer applications requiring a very high level of safety and in which the malfunction or failure of an electronic component could endanger human life or health, customers must ensure that they have all necessary expertise in the safety and regulatory ramifications of their applications. Customers acknowledge and agree that they are solely responsible for all legal, regulatory and safety-related requirements concerning their products and any use of WE products in such safety-critical applications, notwithstanding any applications-related information or support that may be provided by WE.

CUSTOMERS SHALL INDEMNIFY WE AGAINST ANY DAMAGES ARISING OUT OF THE USE OF WE PRODUCTS IN SUCH SAFETY-CRITICAL APPLICATION.
