Statement regarding ODS (EC) No. 1005/2009

Dear Sir or Madam,

ODS, Ozone Depleting Substance, such as chlorofluorocarbons, halons, carbon tetrachloride, methyl bromide, hydrochlorofluorocarbons, are normally used as refrigerant, foaming agent, extinguishant and solvent cleaner. Regulation (EC) No. 1005/2009 lays down rules on the production, import, export, placing on the market, use, recovery, recycling, reclamation and destruction of substances that deplete the ozone layer, on the reporting of information related to those substances and on the import, export, placing on the market and use of products and equipment containing or relying on those substances.

Würth Elektronik eiSos GmbH & Co.KG, as a supplier of electronic components, has the awareness of protecting the ozone layer in the whole supplier chain and hereby certify non-use of ozone depleting substances (ODS) listed in Annex I to Regulation (EC) No. 1005/2009 in our product portfolios.

We continue to follow up any update of this regulation in future and ensure our company meets the rules of this regulation.

Michael Weser
