China RoHS Conformity Certificate

This document certifies that all components and all homogeneous sub-components which are manufactured by Würth Elektronik eiSos GmbH & Co. KG comply with the current China RoHS 2 "Administrative Measures for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products". The Act entered into force on 1 July 2016. Similar to EU-RoHS the Act is intended to limit the spread of certain toxic substances in electronic products.

China RoHS contains the following substances, detailed concentration limits are set by GB/T 26572-2011.

- Lead (Pb), 0.1%
- Mercury (Hg), 0.1%
- Cadmium (Cd), 0.01%
- Hexavalent chromium (Cr⁶⁺), 0.1%
- Polybrominated biphenyls (PBBs), 0.1%
- Polybrominated diphenyl ethers (PBDEs), 0.1%

The China RoHS 2 requires that all electrical and electronic products that fall within its scope of application must be marked with one of the following two logos according to standard SJT 11364-2014 if they are used directly by the end user (B2C-Business). The selection of the logo is dependent on whether or not hazardous substances are contained above the respective limit value.

The green "e" symbol signifies that the product does not contain restricted substances above the respective limit value and is a green, environmentally friendly product which can be recycled.

The orange "number" symbol signifies that the product contains certain hazardous substances above the respective limit value, can be used safely during its environmental friendly use period (EFUP), as indicated by the number of years in the center, and should enter the recycling system after its EFUP. Manufacturers and importers shall also provide a declaration table of the hazardous substances present in the product, in accordance with standard SJT 11364-2014.

Since Würth Elektronik eiSos GmbH & Co. KG does not deliver products directly to the end customer, neither our products nor their packaging are marked directly.

Due to the knowledge and practical experience in the area of material properties for passive components where considerations regarding the physical and chemical properties have been incorporated, and all information have been clearly communicated among supplier chain, we would like to announce the parts listed in below link which are manufactured by Würth Elektronik eiSos GmbH & Co. KG have been defined the EFUP for 50 years.
