YOUR REQUEST FOR STATEMENT ON BREXIT PREPAREDNESS

Dear Sir or Madam,

We confirm receipt of your writing with many thanks.

The decision of the UK to leave the European Union 29th March 2019 is still subject to uncertainties. As your business partner and with present writing, we outline Würth Elektronik's approach to the forthcoming withdrawal from UK's status of EU member State.

Since August 2018, Würth Elektronik companies are monitoring relevant developments in an internal "task force" to identify possible impacts at an early stage and take appropriate actions for risk mitigation.

Of course, there will be a kind of transition phase for every company until business will run smoothly again. Our aim is to keep such phase as short as possible and keep our service level as high as usual.

For today and based on decisions on governmental level available to- date, we provide you with the following information in terms of impacts on post- BREXIT business transactions:

- The share of components sourced in the UK is < 2%, thus a risk near to zero for our customers as there is no dependency or a possible impact from losing benefits.
- All contracts are ruled by EU legislation.
- Würth Elektronik is prepared to handle extended logistic requirements in case of a "hard BREXIT" along with import / export documentation & processing with their competence in running international business with customers and suppliers in third countries.

UNTERNEHMENSGRUPPE

- A lack of resources is very unlikely since both important functions in UK as well as the WE contact persons in UK serving you as yet remain unchanged.
- With respect to changes in transport, e.g. possible delays due to customs clearance at UK / EU borders, we are in close contact with our freight forwarders and strongly recommend you the same if agreed INCOTERMS 2010® with WE are determined accordingly.

For any further information, please do not hesitate to get in touch with your sales contact person directly. For productivity reasons and to the benefit of our valuable customers, no individual questionnaires will be administrated.

Thank you for your understanding and best regards

WÜRTH ELEKTRONIK
