

Welcome on Board

The Würth Elektronik Group with more than 8300 employees in 50 countries manufactures and sells electronic and electromechanical components, circuit boards and intelligent power and control systems. The business unit Würth Elektronik eiSos with headquarters in Waldenburg, Germany, is specialized on electronic and electromechanical components and one of the most successful in the Würth Group.

What are you looking for?

Join our team and grow with us.

Internship in the field of test automation

Munich | Ref.-No. 511

Your tasks on board

During your internship you will be involved in the development of the measurement automation in the laboratory.

- Create and develop test automation in LabView
- Software-technical evaluation and preparation of measurement data
- Implementing the new measuring software in existing measuring stations
- Carrying out measurements and simulations in the measurement laboratory

Your requirements

- Studies in electrical engineering, computer science or a comparable degree
- Experiences in programming with LabView
- Basic knowledge of electronic metrology and the control of measuring instruments
- Fluent English skills, German knowledge is beneficial
- Your strengths: You love the challenge of finding new ways to solve problems and to help shape our laboratory measurement automation

Your application

Marius Bönisch looks forward to receiving your application. Please indicate your earliest possible entry date and attach your certificate of enrolment as well as your study regulations towards your application.
